**PATENT PROTECTION FOR HIGH TECHNOLOGY****FIRM OVERVIEW:**

Schwegman, Lundberg & Woessner, P.A. (SLW) is a Go-To-Law Firm® in the practice area of intellectual property. Because we are a boutique law firm dedicated to the practice of intellectual property law, this means everyone at SLW is on the same page and there is no competition between departments for staffing, technology, and other issues that deter attorneys from focusing on the needs of their clients.

SLW's professionals include attorneys, patent agents, and technical advisors with advanced degrees in the areas of electrical, computers/software, chemical and mechanical engineering, chemistry, molecular biology, and other life sciences. The firm has special expertise in high technology electrical, chemical, and biological prosecution including computer and microprocessor architecture, software, pharmaceuticals, polymers and biotechnology including small molecules, biologicals, diagnostic assays, antibody technology, peptides, recombinant methods, and vaccines. The firm also includes practitioners with skills in the protection of medical devices, including pacemaker technology, medical software, sensors, and stents. The firm obtains hundreds of patents for its clients each year and is particularly skilled at handling high volume prosecution.

SLW has developed the ClaimBot™ program to chart and index patent claims, and ClaimTracker™ software to manage prosecution history. Together these programs capture and organize all information critical to prosecuting and managing patents and their claims.

The senior attorneys of SLW have extensive experience in providing opinions to clients threatened with infringement, considering infringement litigation, or who are concerned with the breadth and enforceability of their own patents, or the patents of competitors or potential partners.

SLW has attorneys who have been named *The Best Lawyers in America*®, and Super Lawyers®. Our firm was recently chosen by the *Minneapolis/St. Paul Business Journal* as one of 2009's honorees for The Best Places To Work.

**INDUSTRIES REPRESENTED:**

SLW is a law firm focused on creating value for our clients by applying our expertise in intellectual property law to obtain, evaluate, and develop patents. We are privileged to serve an international roster of clients that includes:

- ▶ Multinational corporations
- ▶ Middle-market business
