

Intellectual Property Guidance for the Mechanical Industry

From start-up ventures with new ideas to established market players, we can partner with you to develop a winning intellectual property (IP) strategy including:

- Building an IP strategy that complements your business strategy
 - Avoiding potential infringement of existing patents
 - Handling strategic reexaminations of your own and third party patents
 - Building a worldwide patent portfolio that adds competitive advantage to your company
 - Identifying opportunities to enforce your patents and developing winning litigation strategies
 - Negotiating complex licensing and transactional agreements that enhance the value of a deal
-

The attorneys at Schwegman, Lundberg & Woessner, P.A. (SLW) understand the complexities of mechanical and electromechanical systems and can advise you at every stage of your growth. We've helped clients grow from small start ups to multi-billion dollar players, and with making acquisitions on the order of hundreds of millions. Working with you on opinions and freedom-to-operate issues to portfolio planning and management to licensing and due diligence to reexaminations, we have the technical and legal savvy to get the job done with the best outcomes possible.

Strategic Approach to Intellectual Property

We won't just secure your patent, we will work with you to build an intellectual property strategy that compliments your business strategy. We take the time to learn your industry, your business, and your market differentiators as well as those of your competitors, and we use this knowledge to help you

not only secure your patent, but build a patent portfolio that adds competitive advantage to your business.

Business Partners, Strategic Thinkers and Innovators

We're not just patent attorneys - we are business partners, strategic thinkers and innovators. That puts us in a better position to advise you on your IP issues. Our firm has created unique platforms that allows us to track patents, claims and prior art in a more thorough, flexible, and faster way than anyone else.

Our Expertise

The 45 attorneys who make up the mechanical practice have backgrounds in the industry as engineers and hold numerous advanced degrees in engineering. Our attorneys have worked on a variety of patents including:
